

Plastics Recycling

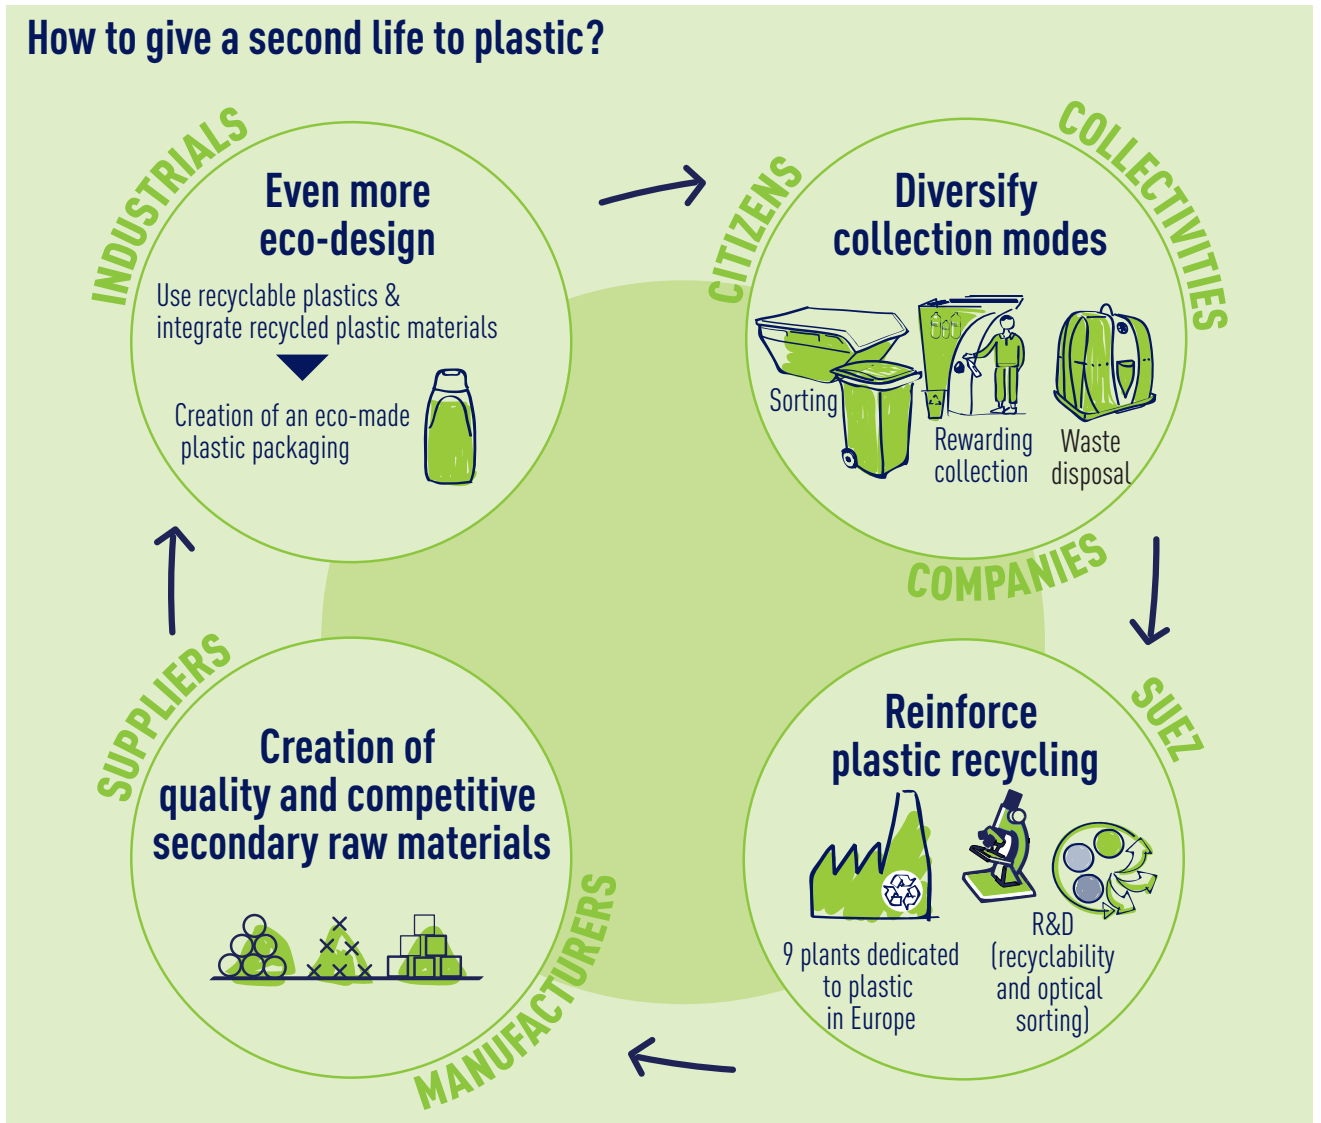

Key figures:

50Mt of plastics produced every year in Europe
 → **X 50**¹ in 50 years

25Mt of plastic waste every year in Europe
 → **25%** is recycled 

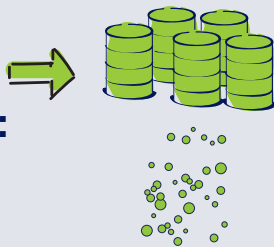

269,000 tons² of plastic floats on the oceans 

How to give a second life to plastic?

Environmental benefits

Produce **1 ton** of recycled plastic saves :

5 barrels of oil

Eq to **1.6 ton** of CO²

90% of energy

Our objective: boost the circular economy

+50%  of plastic recycled volumes by 2020
 → 600 000 tons
